Joseph Conrad, born Józef Teodor Konrad Korzeniowski, was a Polish-British writer who drew heavily on his own experiences as a seaman and traveler. His journey to the Congo in 1890, where he witnessed the brutal realities of European colonial exploitation, directly influenced the creation of Heart of Darkness.

Colonialism and the Congo Free State

The novella is set against the backdrop of the Congo Free State, a private colony controlled by King Leopold II of Belgium. This period was marked by extreme exploitation and atrocities committed against the indigenous population. Conrad's depiction of colonialism in Heart of Darkness provides a stark critique of imperialist ventures, exposing the greed, cruelty, and moral corruption underlying European expansion in Africa.

Joseph Conrad's Personal Experiences

Conrad's own voyage up the Congo River in 1890 profoundly shaped the narrative. His observations of the dehumanizing effects of colonial rule and the psychological impact on both colonizers and colonized are reflected throughout the novella. These experiences lend authenticity and urgency to the moral questions posed in the text.
