## Instructions for Cooking Pork Tenderloin in a Bag

Follow these step-by-step instructions to cook pork tenderloin in a Kroger cooking bag:

## Step 1: Preheat the Oven

Preheat your oven to 350°F (175°C). This temperature is ideal for cooking pork tenderloin, ensuring it remains juicy and tender.

## Step 2: Prepare the Cooking Bag

1. Take the Kroger cooking bag out of the package.
2. Place the bag in a suitable baking dish or roasting pan, ensuring it is open and can accommodate the pork tenderloin and any additional ingredients.

## Step 3: Season the Pork Tenderloin

1. If desired, rub the pork tenderloin with olive oil to help the seasoning adhere better.
2. Generously season the pork tenderloin with your choice of marinade or seasoning. Common options include:
  - Garlic powder
  - Onion powder
  - Paprika
  - Salt and pepper
  - Pre-made spice rubs
3. Make sure to coat the entire surface for maximum flavor.

## Step 4: Add Optional Ingredients

If you want to include vegetables in your dish, now is the time to add them. Cut your preferred vegetables into bite-sized pieces and place them in the cooking bag alongside the seasoned pork

tenderloin. This will create a complete meal in one bag.

## **Step 5: Seal the Cooking Bag**

1. Once the pork tenderloin and vegetables are in the bag, carefully seal the cooking bag using the provided tie or closure.
2. Ensure that the bag is sealed tightly to prevent any juices from leaking out during cooking.

## **Step 6: Make Ventilation Holes**

Using a sharp knife or scissors, cut a few small slits in the top of the cooking bag. This allows steam to escape, preventing the bag from bursting while cooking.

## **Step 7: Bake in the Oven**

1. Place the sealed cooking bag in the preheated oven.
2. Bake for approximately 25 to 30 minutes per pound of meat. For a 1-pound pork tenderloin, this usually translates to about 25-30 minutes. A 1.5-pound tenderloin will take around 35-45 minutes.
3. Use a meat thermometer to check for doneness. The internal temperature of the pork should reach at least 145°F (63°C).

## **Step 8: Rest and Serve**

1. Once the pork tenderloin reaches the desired temperature, carefully remove the cooking bag from the oven.
2. Allow the bag to sit for about 5 minutes before opening, as it will be hot and steamy.

3. Open the bag carefully to avoid steam burns, and transfer the tenderloin and vegetables to a serving platter.
4. Let the pork tenderloin rest for a few minutes before slicing. This allows the juices to redistribute, ensuring a moist and flavorful dish.

## Tips for a Perfect Pork Tenderloin

To elevate your Kroger cooking in bag pork tenderloin experience, consider these tips:

1. **Marinate Ahead:** For deeper flavor, marinate the pork tenderloin in the refrigerator for a few hours or overnight before cooking.
