## Understanding Samira's Abilities

Before diving into builds and strategies, it's essential to understand Samira's kit. Her abilities are designed to make her a fearsome duelist, capable of dealing significant damage in team fights and one-on-one skirmishes.

### Passive: Daredevil Impulse

Samira's passive, Daredevil Impulse, is what sets her apart from other ADCs. It allows her to gain stacks of style by hitting enemies with abilities or auto-attacks. Here's how it works:

- Style Stacks: Samira can accumulate up to 4 style stacks based on the type of damage she deals.
- Ultimate Activation: Once she reaches 4 stacks, she can use her ultimate ability, Inferno Trigger, which unleashes a barrage of bullets that deals damage to all enemies in a cone in front of her.

### Q: Flair

Samira's Q ability, Flair, allows her to strike enemies with her weapon:

- Melee and Ranged Damage: Samira can use this ability both as a melee attack and a ranged ability, depending on her position.

## **E: Wild Rush**

With Wild Rush, Samira can dash to an enemy or ally, providing mobility:

- Engage/Disengage: This ability allows her to engage fights or escape dangerous situations quickly.
- Reset Mechanic: If Samira kills an enemy champion, the cooldown resets, allowing for aggressive plays.

## **R: Inferno Trigger**

Samira's ultimate, Inferno Trigger, is where she truly shines:
