Getting Started with Sew Simple Shapes

Before diving into your quilting projects, it's essential to familiarize yourself with the steps involved in using Sew Simple Shapes. Here's a straightforward process to follow:

Step 1: Choose Your Shapes

Begin by selecting the shapes you want to use for your project. Lori Holt offers a variety of templates, so take the time to explore the options available. Consider the overall design you envision and how the shapes will complement each other.

Step 2: Prepare Your Fabric

Choose your fabric and prewash it to eliminate any shrinkage later. Iron the fabric to ensure a smooth surface for cutting. It's advisable to use quilting cotton for optimal results, as it holds its shape well.

Step 3: Trace and Cut the Shapes

Using your rotary cutter and cutting mat, trace around the Sew Simple Shapes templates onto your fabric. Once traced, carefully cut out the shapes, ensuring precision to maintain uniformity.

Step 4: Secure the Shapes

If you're using fabric glue or fusible web, apply it to the back of your shapes before placing them on your quilt top. This step is vital for keeping the shapes in place while you sew.

Step 5: Stitching the Shapes

Choose your preferred stitching method—hand sewing or machine sewing—to secure the shapes onto your quilt top. A straight stitch or zigzag stitch works well, depending on the look you wish to achieve.

Step 6: Finish Your Quilt

Once all the shapes are securely stitched, complete your quilt by adding batting and backing fabric. Quilt as desired, and then bind the edges to finish your project.
