Understanding Merge Mansion

Merge Mansion is a mobile puzzle game that combines elements of merging and home renovation. Players are tasked with restoring a mansion that has been left in disarray, collecting various items that can be merged to create new, more valuable items. The game unfolds through a story that follows the character, Maddie, as she uncovers family secrets hidden within the mansion.

As players progress, they encounter various obstacles, including limited inventory space, time constraints, and the need for specific items to complete tasks. This is where the concept of “cheats” and hacks comes into play, specifically the so-called paint can cheat.
