- Clean terminals and ensure that the battery is securely mounted.

Common Issues and Troubleshooting Tips

Even with proper maintenance, you may encounter issues with your Mitsubishi Mirage 2002. Here are some common problems and troubleshooting tips:

1. Engine Won't Start

- Check the battery: Ensure that it is charged and the terminals are clean.
- Inspect the fuel level: Make sure you have enough fuel in the tank.
- Look for warning lights: Refer to the dashboard indicators section of the manual.

2. Poor Fuel Economy

- Ensure proper tire pressure: Under-inflated tires can decrease fuel efficiency.
- Check for air filter cleanliness: A dirty air filter can affect engine performance.

3. Overheating

- Check coolant levels: Low coolant can cause the engine to overheat.
- Inspect the radiator for leaks or blockages.

4. Unusual Noises

- Identify noise source: Listen for where the noise is coming from (engine, brakes, etc.).
- Refer to the troubleshooting section of the manual for specific noise-related issues.
