Battery Management

The Motorola One 5G UW is equipped with a robust 5000 mAh battery, providing all-day usage. However, understanding how to manage your battery can enhance its longevity.

Battery Saving Tips

1. Enable Battery Saver: Go to Settings > Battery > Battery Saver and toggle it on.
2. Limit Background Activity: Restrict apps from running in the background by navigating to Settings > Apps & Notifications.
3. Reduce Screen Brightness: Adjust the brightness settings in Display to save battery life.

Charging Your Device

To charge your device:

1. Use the included USB Type-C charging cable and plug it into the wall charger.
2. Connect the other end to your phone.
3. You can also charge your device using a compatible wireless charger.

Maintenance and Troubleshooting

To ensure optimal performance, regular maintenance and troubleshooting are essential.

Software Updates

Keep your device updated by:

1. Going to Settings > System > System updates.
2. Check for updates and follow the on-screen instructions to install them.

Troubleshooting Common Issues

If you encounter issues with your device:

- Device Won't Turn On: Ensure it's charged. If not, try a different charging cable or wall adapter.
- Connectivity Issues: Restart your device and toggle airplane mode on and off.
- App Crashes: Clear the app cache by going to Settings > Apps & Notifications > [App Name] > Storage > Clear Cache.
