Before the Exam

Arrive early at the testing center with required identification documents, such as a government-issued photo ID. Ensure all electronic devices are left outside the exam room, as they are typically prohibited. Candidates should also bring any allowed materials, such as an approved calculator, if specified.

During the Exam

Read each question carefully and pace yourself to answer all questions within the allotted time. Use the process of elimination for difficult questions and avoid spending too much time on any single item. Stay calm and focused throughout the exam session.
