

new schaff herzog encyclopedia of religious knowledge

New Schaff-Herzog Encyclopedia of Religious Knowledge is a comprehensive reference work that serves as an invaluable resource for scholars, students, and anyone interested in understanding the vast and intricate world of religious thought and practice. This encyclopedia encapsulates a wide range of religious traditions, historical perspectives, and theological concepts, making it a pivotal tool for research and education in the field of religious studies.

Background and Historical Context

The New Schaff-Herzog Encyclopedia of Religious Knowledge is a revision and expansion of the original Schaff-Herzog Encyclopedia, which was first published in the late 19th century. The original work, edited by Philip Schaff and Samuel M. Jackson, aimed to provide a comprehensive overview of various religious traditions, figures, and doctrines. The need for a new edition arose as scholarship in religious studies evolved, with new discoveries and interpretations coming to light.

The New Schaff-Herzog was published in multiple volumes from 1950 to 1952, edited by Samuel M. Jackson and Charles E. C. Weigle. It was designed to be more accessible and user-friendly, reflecting modern scholarship and inclusive of a broader array of religious traditions beyond Christianity. This was particularly important as the 20th century witnessed significant changes in global religious dynamics.

Structure and Content

The New Schaff-Herzog Encyclopedia is structured to facilitate thorough exploration of religious topics. The encyclopedia consists of several volumes, each meticulously organized to cover various aspects of religious knowledge. The content can be categorized into the following sections:

1. Articles on Major Religions

The encyclopedia offers in-depth articles on major world religions, including:

- Christianity: Covering its history, denominations, theological concepts, and influential figures.
- Judaism: Exploring its traditions, texts, and historical development.
- Islam: Discussing its foundational beliefs, sects, and cultural practices.
- Eastern Religions: Including Hinduism, Buddhism, Sikhism, and others, with a focus on their unique philosophies and rituals.

2. Theological Concepts and Doctrines

In addition to major religions, the encyclopedia delves into theological concepts that are significant across multiple faiths, such as:

- Divinity: Different understandings of God and gods in various religions.
- Salvation: Concepts of salvation, grace, and redemption in different faith traditions.
- Ethics: Moral teachings and ethical implications within religious contexts.

3. Historical Figures and Movements

The encyclopedia provides biographies and analyses of significant religious figures, movements, and events that have shaped religious thought and practice throughout history. This includes:

- Founders of major religions.
- Reformers and theologians who contributed to religious discourse.
- Key historical events that impacted religious communities.

4. Religious Texts and Literature

Another vital aspect covered in the encyclopedia is the examination of sacred texts and religious literature. The encyclopedia discusses:

- The Bible, Quran, Vedas, and other foundational texts, offering insights into their significance and interpretations.
- The role of religious literature in shaping beliefs and practices.
