3. Fill-in-the-Blank Exercises

These activities help children practice vocabulary and sentence structure. For instance, a worksheet might present a nursery rhyme with some words missing, prompting children to fill in the blanks.

4. Rhyming Word Activities

Worksheets can include exercises where children identify and circle or underline words that rhyme with a given word from a nursery rhyme.

5. Sequencing Activities

Sequencing worksheets encourage children to arrange images or lines from a nursery rhyme in the order they appear, thereby enhancing comprehension and narrative skills.
