## Preparing Omaha Steaks Scallops

Proper preparation is the foundation of successful Omaha Steaks scallops cooking instructions. First, ensure the scallops are fully thawed if frozen, ideally by placing them in the refrigerator overnight or submerging them in cold water for quicker thawing. Avoid thawing at room temperature to maintain food safety. Once thawed, rinse the scallops under cold water and gently pat dry with paper towels to remove excess moisture, which is critical for achieving a good sear. Removing the side muscle, if still attached, is also important as it can be tough when cooked. Finally, season the scallops lightly with salt and freshly ground black pepper or your choice of seasoning to enhance their natural flavor.

## Thawing Guidelines

Omaha Steaks scallops should be thawed gradually to preserve texture and

prevent bacterial growth. The recommended method is placing the scallops in the refrigerator for 8 to 12 hours. For faster thawing, sealed scallops can be submerged in cold water for 20 to 30 minutes, changing the water every 10 minutes. Avoid using warm water or microwave thawing, which can lead to uneven thawing and partial cooking.

## **Seasoning Tips**

Simple seasoning is best to highlight the delicate flavor of scallops. Use kosher salt, sea salt, or freshly ground black pepper. For variation, consider adding garlic powder, smoked paprika, or herbs such as thyme or parsley. Lightly coat the scallops with seasoning just before cooking to prevent drawing out moisture prematurely.

## **Pan-Seared Omaha Steaks Scallops Cooking Instructions**

Pan-searing is one of the most popular methods for cooking Omaha Steaks scallops, prized for producing a caramelized crust while preserving a tender interior. Key to successful pan-searing is using a hot pan and minimal handling to develop an even golden-brown surface.

## **Equipment and Ingredients**

Use a heavy-bottomed skillet or cast iron pan for even heat distribution. Ingredients needed include Omaha Steaks scallops, high-smoke-point oil such as canola or grapeseed oil, butter, and optional aromatics like garlic and fresh herbs.

## **Step-by-Step Pan-Searing Instructions**

1. Heat the skillet over medium-high heat until very hot but not smoking.
2. Add 1 to 2 tablespoons of oil and swirl to coat the pan evenly.
3. Place the scallops in the pan, spacing them apart to avoid overcrowding.
4. Cook without moving for 2 to 3 minutes until a golden crust forms on the bottom.
5. Flip the scallops gently using tongs and add a tablespoon of butter along with garlic cloves and herbs if desired.
6. Baste the scallops with the melted butter for another 1 to 2 minutes

until opaque and firm to the touch.

7. Remove from heat and let rest briefly before serving.

## **Grilling Omaha Steaks Scallops**

Grilling is an excellent method for adding smoky flavor and a slightly charred exterior to Omaha Steaks scallops. Careful temperature management and preparation prevent scallops from drying out on the grill.

### **Prepping the Grill and Scallops**

Preheat the grill to medium-high heat, around 400°F. Lightly oil the grill grates to prevent sticking. Pat scallops dry and season as preferred. Skewering scallops can help with even cooking and ease of handling on the grill.

### **Grilling Instructions**

1. Place scallops directly on the grill or on skewers.
2. Grill for approximately 2 to 3 minutes per side, turning once carefully.
3. Avoid overcooking; scallops should be opaque but still tender.
4. Remove from grill and let rest for a minute before serving.

## **Broiling Instructions for Omaha Steaks Scallops**

Broiling offers a quick and convenient cooking method that mimics high-heat grilling indoors. It creates a nicely browned top while maintaining the juicy interior of the scallops.

### **Broiler Preparation**

Set the oven broiler to high and position a rack about 4 to 6 inches from the heating element. Use a broiler-safe pan or baking sheet and lightly oil the surface to prevent sticking.

## Broiling Steps

1. Arrange the scallops in a single layer on the prepared pan.
2. Broil for 4 to 6 minutes, turning once halfway through cooking.
3. Watch closely to prevent burning; scallops should become firm and opaque.
4. Remove promptly and serve immediately for best texture.

## Serving Suggestions and Tips

Proper presentation and complementary flavors enhance the enjoyment of Omaha Steaks scallops. These delicate shellfish pair well with light sauces, fresh herbs, and side dishes that do not overpower their natural sweetness.

## Recommended Side Dishes

- Garlic butter or lemon butter sauce
- Light salads with citrus vinaigrette
- Steamed or roasted vegetables such as asparagus or green beans
- Creamy risotto or herbed rice
- Mashed potatoes or cauliflower puree

## Additional Cooking Tips

- Do not overcrowd the pan or grill; cook scallops in batches if necessary.
- Use a meat thermometer to ensure scallops reach an internal temperature of 115°F to 120°F for optimal doneness.
- Allow scallops to rest briefly after cooking to redistribute juices.
- Experiment with seasoning blends but keep it simple to highlight the scallops' flavor.

## **Frequently Asked Questions**

### **How do I cook Omaha Steaks scallops on the stovetop?**

To cook Omaha Steaks scallops on the stovetop, heat a tablespoon of oil or butter in a skillet over medium-high heat. Pat the scallops dry, season with salt and pepper, and sear them for about 2-3 minutes per side until they are golden brown and cooked through.

### **Can I bake Omaha Steaks scallops in the oven?**

Yes, you can bake Omaha Steaks scallops in the oven. Preheat the oven to 400°F (200°C), place the scallops in a baking dish, season as desired, and bake for 10-12 minutes until they are opaque and firm.

### **What is the best way to season Omaha Steaks scallops before cooking?**

A simple and effective seasoning for Omaha Steaks scallops includes salt, pepper, and a squeeze of lemon juice. You can also add garlic powder, paprika, or fresh herbs like parsley for extra flavor.

### **Should I thaw Omaha Steaks scallops before cooking?**

Yes, it is recommended to thaw Omaha Steaks scallops before cooking. Thaw them overnight in the refrigerator or under cold running water to ensure even cooking and the best texture.

### **How long does it take to grill Omaha Steaks scallops?**

Grilling Omaha Steaks scallops usually takes about 2-3 minutes per side over medium-high heat. Make sure the grill is well-oiled to prevent sticking and cook until the scallops are opaque and have grill marks.

### **Can I use frozen Omaha Steaks scallops directly for cooking?**

While you can cook frozen Omaha Steaks scallops directly, it is best to thaw them first for more even cooking and better texture. If cooking from frozen, increase the cooking time slightly and monitor closely to avoid overcooking.

# What is the recommended internal temperature for cooked Omaha Steaks scallops?

The recommended internal temperature for cooked Omaha Steaks scallops is 125°F to 130°F (51.5°C to 54.5°C) for a tender and slightly translucent center. Cooking beyond this may cause them to become tough.
