What Is the Passing Score for Algebra 1 EOC Florida?

Understanding the passing score for Algebra 1 EOC Florida is essential for students aiming to meet state graduation requirements. The Florida Department of Education sets a minimum passing score that students must achieve on the exam to demonstrate proficiency. This score is determined through a standard-setting process that involves educators, psychometricians, and policymakers to ensure fairness and rigor.

Minimum Passing Score Threshold

The current passing score for the Algebra 1 EOC in Florida is set at a scaled score of 350 out of 500. This score represents the minimum level of competency deemed necessary for students to have mastered the critical algebra skills. Scaled scores are used to account for slight variations in exam difficulty across different administrations, providing a consistent benchmark.

Scaled Scores vs. Raw Scores

It is important to distinguish between raw scores—the number of questions answered correctly—and scaled scores, which are adjusted to maintain consistency. A student's raw score is converted into a scaled score through a statistical process known as equating. Achieving the passing scaled score of 350 ensures that the student has demonstrated adequate understanding regardless of the specific exam version.

Scoring and Grading System for the Algebra 1 EOC

The scoring system for the Algebra 1 EOC Florida involves converting raw scores into scaled scores to provide a standardized measurement of student performance. The scale ranges from 200 to 500, with 350 as the established passing mark. This section explains how scores are calculated and categorized

to help students and educators interpret results effectively.

Score Categories and Performance Levels

Students' scores on the Algebra 1 EOC are classified into performance levels that reflect their mastery of algebraic concepts:

- **Level 1 (200-349):** Does not meet expectations
- **Level 2 (350-399):** Meets expectations (passing)
- **Level 3 (400-449):** Mastery level
- **Level 4 (450-500):** Advanced mastery

Students achieving Level 2 or higher are considered to have passed the Algebra 1 EOC, fulfilling the state's requirement for algebra proficiency.
