Additional Resources

1. *The Psychology of Human Misjudgment* by Charlie Munger

This book is a compilation of speeches and writings by Charlie Munger that delve into the common

psychological tendencies that lead to poor decision-making. It provides insight into cognitive biases such as confirmation bias, incentive-caused bias, and social proof, among others. Understanding these patterns can help readers improve their judgment in investing and life.

2. *Seeking Wisdom: From Darwin to Munger* by Peter Bevelin

Peter Bevelin explores the principles of sound thinking and decision-making by drawing on the ideas of Charles Munger, Charles Darwin, and other great thinkers. The book emphasizes multidisciplinary learning and mental models to solve problems effectively. It's a practical guide to developing better judgment and avoiding common cognitive errors.

3. *Thinking, Fast and Slow* by Daniel Kahneman

Written by Nobel laureate Daniel Kahneman, this book explains the two systems that drive the way we think: the fast, intuitive system and the slow, deliberate system. It reveals the biases and heuristics that influence our decisions, often leading us astray. Kahneman's work complements Munger's insights on human misjudgment and rational decision-making.

4. *The Art of Thinking Clearly* by Rolf Dobelli

This book catalogs a wide array of cognitive biases and logical fallacies that affect everyday thinking. Rolf Dobelli presents these pitfalls in concise chapters, helping readers recognize and avoid flawed reasoning. It's a practical handbook for improving clarity and rationality in thought processes, much like the teachings in Poor Charlie's Almanack.

5. *Super Thinking: The Big Book of Mental Models* by Gabriel Weinberg and Lauren McCann

Super Thinking introduces readers to a broad range of mental models used by successful thinkers like Charlie Munger. The book covers concepts from economics, psychology, physics, and more, providing tools to approach problems from multiple perspectives.
