The Second Robin

Initially portrayed as a streetwise orphan, he was taken in by Bruce Wayne (Batman) after attempting to steal the tires off the Batmobile.

Tragic Fate

In this arc, the Joker brutally murders Jason Todd, a moment that shocked readers and forever altered the trajectory of Batman's narrative. Resurrection

This resurrection was made possible by the Lazarus Pit, a mystical pool used by Ra's al Ghul that can restore life, but at a cost.

Transformation into the Red Hood

Upon his return, Jason Todd adopts the persona of the Red Hood, a name previously associated with the Joker before his transformation. This choice signifies not only a rebirth but also a rejection of the Batman legacy that once defined him. He dons a new costume, complete with a red helmet and a

more aggressive arsenal. This new identity allows him to confront those he believes failed him, particularly Batman.
