Origins of the Story

Rudyard Kipling, born in 1865 in India, was an English author known for his short stories, poems, and novels. His work often reflects his experiences in colonial India, and "How the Camel Got His Hump" is no exception. The story was first published in 1902 as part of the "Just So Stories," a collection aimed primarily at children. These stories are characterized by their imaginative explanations for various natural phenomena, animals, and human behaviors.

Kipling's inspiration for "How the Camel Got His Hump" likely stemmed from his observations of the animals and culture surrounding him during his time in India. The story serves as a mythological account, blending elements of folklore with Kipling's unique narrative style.

Summary of the Story

The tale begins in a time when the world was still new, and animals could speak and engage in human-like behavior. In this world, the camel is depicted as a lazy creature that refuses to work, preferring to stay idle in the desert. This lack of effort does not sit well with the other animals, particularly the dog, who is diligent and hardworking.

Key Characters

1. The Camel: A lazy animal who avoids work and responsibilities.
2. The Dog: Represents hard work and diligence; he tries to convince the camel to work.
3. The Horse: Another diligent character who also tries to persuade the camel.

4. The Man: A human figure who plays a crucial role in the camel's transformation.

Plot Development

The story unfolds as the dog, horse, and man confront the camel about his laziness. The camel, however, dismisses their concerns and continues to lounge about. Frustrated by his behavior, the animals decide to report him to the "Three," a group of powerful and authoritative figures in the animal kingdom.

When the Three arrive, they find the camel lounging in the sun. They are disappointed by his lack of effort and decide to teach him a lesson. The camel's laziness leads to a significant change: he is transformed, and a hump appears on his back as a physical manifestation of his idleness. The hump serves a dual purpose: it is a reminder of his laziness and provides him with the necessary energy to work.
